

KPMG Master of Accounting

with Data and Analytics Program

Program requirements

This is no ordinary program, so we are looking for extraordinary applicants. A completed KPMG application includes submitting a résumé and a most recent transcript, completing an employment application, and answering essay questions. Select applicants will then move on to the interview process. Upon moving into the next phase of the KPMG Program, candidates will need to follow the normal application process for admittance to the designated universities.

Following is a list of **basic qualifications** for consideration:

- Applicants are seeking a career with KPMG in Audit.
- Applicants have an interest in data and analytics (D&A).
- Applicants have demonstrated leadership, innovation ability, and adaptability to change.
- Applicants will have completed their bachelor's degree in accounting (or equivalent program) from an accredited college or university by their start in the Program.
- Applicants must complete all educational requirements to be CPA license eligible in the state of employment upon completion of the master's degree program.
- Applicants must complete the GMAT exam (unofficial GMAT score due early July).
- Participants are contractually committed to remain in good academic standing and to professional employment with KPMG for three years upon acceptance to the Program (to begin from the date of full-time hire) and are subject to a repayment provision as outlined in the Program agreement. Employees otherwise remain employees at will during (and after) the three-year period.

The Program is only available for applicants who will not require sponsorship now or at any point in the future.

Do you have what it takes?
